stitution expressly guarantees to all, and he had sworn to support that Constitution; the bill had not been printed; he had no copy of it; he did not know what was in it; and yet, on the question of ordering that bill to a third reading, imme diately on its reception and first and second read. ings by its title only-he says he sat in his seat. and, his name being called, did not vote! It seems to us very clear that, however willing to vote for a proper and well-guarded Fugitive Slave Law, a Representative careful of his constituents' rights and liberties should have felt bound, on the question, "Shall this bill now have its third and last reading?" to answer 'No! These 'readings' from the Clerk's deak of the House, with no printed bill before you, are almost unintelligible -a form only. There is great virtue in a 'No.'

Mr. Brooks's explanation is offered at a very late day. Had he, at any time previous to his re-nomination and reelection seen fit to say, "I did not vote on the Fugitive Slave bill because it was crowded through with such a rush that I "did not know what was in it; but, if I had known exactly what it was I should have voted for it throughout," we think this would have softened the aspect of the case very materially. But to shirk the vote on such a bill, maintain a silence with respect to the propriety of its passage, be reflected, and then come out so headlong a champion of this very measure as to unite in a pledge of proscription against all Whigs who do not uphold this measure, seems to us very far from plain frank, manly dealing. But let the impartial judge-

CHEMUNG Co. which has been as strongly anti-Whig as any other, has now a tied Board of Supervisors, Elmira having chosen one of each party, (in separate Districts) John I. Nix (Whig) by 26 majority and Geo. W. Mason (Opp.) by 97. The Opp. Supervisor of Cayuta having removed from the town since Election, James B. Van Etten (Whig) was chosen in his stead by 37 majority. So the Board stands six to six. It has usually been heavily Opposition.

Tompkins Co .- We have already announced the choice of a Whig Supervisor in Ithaca, usually Loco. In Hector, a Hunker is chosen, in consequence of two Whig candidates being run, one on a "Free Soil" ticket. The vote for Supervisor stood: John Knight (" Seward Whig ") 290; Orrin Willcox (do. on Free Soil ticket,) 271; Hunker 312: so the latter is elected, with 249 majority against him, greatly to the delight of the half dozen Silver Grays living there. THE HUTCHINSONS had a magnificent audience last evening-not less than 2,500. There were not seats enough in the spacious Tabernacle for them all. We dropped in late and so could hear little and see less, but those who could see and hear seemed to enjoy. Judson made a brief exposé of his insanity, which was very well received. The 'spirits' which caused it were not of Rochester parentage, but arose from his sudden rejection of Tobacco, Tea, Coffee, Flesh, Mustard, &c. as articles of daily use, and his confining himself to a pure and simple diet, causing a strange exhilaration of spirits, (but no 'Rapping ones.) A'l the talk of disturbance, interruption &c. proved the sheerest moonshine.—The Family will sing again next Monday evening.

CHINA DECORATIONS .- Till lately we had no idea of the extent to which this branch of business had been carried on in this country. We had been laboring under the impression that all those beautiful designs and portraits we had seen embellishing different articles of China Ware were imported, or at least, if performed in this country, were the productions of foreign artists exclusively, who had found their way here through the enterprise of some of our own manufacturers. But judge of our surprise when, on visiting the establishment of the Messrs. Woram & Haughwout, 561 Broadway, we found hat out of about eighty persons em-ployed on that branch of their business, nearly half of them had acquired their knowledge of the art in this country, and we are constrained to say, that from the speci-mens of skill there displayed, we think that the articles furnished by this establishment not only compare favor-ably with, but in many ins ances entirely sarpass anything of the kind we had ever before seen. For the enterprise and public spirit this firm has evinced in opening up to ging class this new avenue of employment, thus diversifying the pursuits of labor and more fully developing the resources of our own industry, we bespeak that en. couragement and patronage from the hands of a discriminating public, which they so richly merit.

New-York and Eric Ralirond.

To the Legislature of New York:

The undersigned owners of real estate and taxpayers in the city of New York, protest any action on the part of your honoreshie body, calculated to restrain the New-York and Eric Ralirond Co. from reaching the city by the nearest and most expeditions route.

The undersigned have no apprehensions of any diversion of the business of the city of New-York, in consequence of their arrangement with the Union Ralirond Company, and are of the opinion that the million and a haif of dollars expended by the Company East of Suffern's, is a sufficient guran tee that no abandonment of that portion of their road will ever occur.

The extraordinary efforts made and making by our enterprising neighbors of Boaton, Philadelphia and Baltimore, to secure the business of the Great West, demand that every facility should be extended to the Ralirond Companies in this State, as the time will soon arrive when the saving of one hour in time between the velley of the Massasippi and the Atlantic, may decide the current of a large share of the business and travel of that region.

New York.

Amemorial, of which he above is a copy, to be presented to the Legislature, is now being circulated among the real estate owners of the City. Among the signatures the news of the following gentlemen aiready appear. Our Rockhand and Westchester County neighbors ought forthwith to get up indignation meetings "to rearrain these individuals from consulting to tojure the business and prosperity of the City of New York."

Increase.....\$25,688 The Wilmington and Manchester Railroad is an important link in the great chain of railways from this City to New-Orieans. Its length is about 162 miles, com-mencing at Wilmington, in North Carolina, and terminat-ing at Marchester, in South Carolina. This road, when made, avoids the disagreeable sea voyage on this ine to New-Orleans from Wilmington to Charleston. About 40 miles of this road, from Manchester east, is nearly complet-ed, the iron for it being now in the course of delivery Most of the entire line is under contract for completion at an early day. Upward of a million of stock subscriptions has already been had, which will be largely increased. The State of South Carolina has taken \$200,000 of its stock. An carly completion of this important work will be highly ad-vantageous to the States lying north and east of it. The great Southern mails will reach here a day or more sooner than at present, and a land trip to New-Orleans made much

more speedy and agreeable. From the fourth annual report of the Pennsyl vania Railroad Company, it appears that

A single track of the road has been in working order from Harrisburgh to Johnstown, using the State Portage, for some time past, and has afforded great facilities for trade and travel. The balance of the work is being prosecuted with great energy and skill. As additional portion of the road on the Western division will be opened during the summer, and it is expected by the close of navigation t will be completed so as to carry passengers to Pittsburgh, with the use of stages only 27 miles. As an indica-tion of what may be expected when the road is completed it is said that in the sixteen months, that detached portions of it have been in operation, averaging about ninety miles, the receipts for passengers, mails, and freight, have been \$296,869 14.
